

# eFilePlus Release Notes Changes deployed 11/20/18

## Snapshot Bibliography 3-Panel Review Feature

This feature allows reviewers to (optionally) view the Current Bibliography, Last Advance, and Difference List each in a separate panel. Displayed next to each other horizontally, the panels make it easier to compare each listing.

## Bug Fixes and Miscellaneous Improvements

- Fix for separate display of Professional Service and Extension Activity in the Comprehensive PDF.
- Improved logic to ensure a Department Chair cannot act as Chair for their own Snapshot.
