

eFilePlus Release Notes

Changes deployed 04/18/2019

Functionality Supporting the 220 Process

This functionality provides the Academic Personnel Office (APO) Analyst to initiate a 220 process based on the Chancellor's preliminary negative decision. Once the 220 process is created, the department File Preparer (working with the Candidate and Chair) can indicate the candidate's choice for how to proceed. These choices determine the processing of the Snapshot going forward. The choices are:

1. Proceed with a Merit without updating the Promotion Snapshot
2. Update the Promotion Snapshot
3. Candidate declines. No Update.

Refer to the User Guide for more information:
