## New Faculty Orientation

Wednesday, September 25, 2019

Ameae M. Walker

Vice Provost for Academic Personnel

UNIVERSITY OF CALIFORNIA, RIVERSIDE

*Kim Wilcox*

*Tom Smith*

# What do we hope to achieve this afternoon?

- Give you an introduction to the University of California, Riverside and to the City of Riverside.
- Give you a chance to hear from and meet some of the leadership and to meet each other
- Provide written material for future reference - handouts
- We will not be taking care of items like keys, parking, IDs or required trainings. Those will be dealt with by your college or department staff.

# Do we abandon you after this orientation?

- › No, we have a *New Faculty Success* series of 9 presentations in collaboration with the Graduate Division plus a junior faculty workshop October 17<sup>th</sup> here. There is a copy of the schedule in your packet. Topics include:- Looking after your graduate students, working with challenging personalities, finding mentoring and more. Plus a few mixers.
- › Mark your calendars now!
- › You can sign up to be a part of the

*Buddy Program*

*Tell us any special aspect of yourself*

# Mission of the University of California – what the State pays you to do

*"The distinctive mission of the University [of California] is to serve society as a center of higher learning, providing long-term societal benefits through transmitting advanced knowledge, discovering new knowledge, and functioning as an active working repository of organized knowledge. That obligation, more specifically, includes undergraduate education, graduate and professional education, research, and other kinds of public service, which are shaped and bounded by the central pervasive mission of discovering and advancing knowledge."*

# How do we assess that you are contributing to the mission?

- › Research/Scholarly Activity/Creative Activity
- › Teaching
- › Service within your research/professional area and service to the university

**The balance among these depends on the faculty series into which you have been hired**

Contributions in each of these areas that promote inclusive excellence are given special weight.

# How do you get it right?- be on campus

“ In order to fulfill those obligations [to the University], faculty members must maintain **a significant presence** on campus, meet classes, keep office hours, hold examinations as scheduled, be accessible to students and staff, be available to interact with University colleagues, and share service responsibilities throughout every quarter or semester of active service.” **Active service includes quarters during which you have no assigned classes.**

# How do you get it right?- mentor

## Find the right mentor- Probably more than one for different purposes

- › Maybe a senior faculty member in your department or another department – best probably to have several.
- › Most of the colleges have one kind of mentoring program or another. Some vary according to department (CNAS and BCOE) and you will receive more information at the college orientations.
- › Women's faculty association- **regular workshops + mentoring**
- › Research office holds workshops about extramural funding
- › We have an Institutional membership for the National Center for Faculty Development and Diversity  
<http://www.facultydiversity.org/>
- › –talk to your Chair

# How do you get it right?- research

- The level and/or type of research or creative activity varies with the faculty series into which you are appointed and also with the discipline or sub-discipline. It is therefore important that you meet regularly with your department chair or mentor to discuss progress.

# How do you get it right?- service

- › It is important to be involved, but also important to maintain a balance with the other expectations of your job. You will not be granted tenure or promoted to Full professor or Distinguished professor if your research is lacking but you have been a wonderful citizen! Nevertheless, it is important to emphasize that your contributions to service are a significant part of the evaluations for your merits and promotions. You will not, for example, be granted promotions or accelerations through the merit system if your contributions to service are not **commensurate** with rank

# How do you get it right?- teaching

- › UCR has many students who are the first in their families to attend college. Your expectations may not be as obvious to them as you anticipate.
- › Think about the economic situation of many of the students when choosing texts etc.
- › Remember that many students have to work while attending UCR and the longer lead time they have for assignments, the more successful they are likely to be. Try to be flexible about office hours so that they can indeed find time to come see you.

# How do you get it right?- teaching

- › Student evaluations are a significant source of information about the quality of your teaching during the academic personnel review process. The two most important pieces of advice are 1) to show the students that you care about doing a good job and that they succeed in the course (they will forgive a lot of imperfections under these circumstances) and 2) to ask for help from colleagues or the Academy of Distinguished Teachers as soon as you receive poor evaluations. Evidence that you have actively sought help and are trying to improve carries weight in the evaluation of personnel files.
- › Listen to Vice Provost Brown!

# University of California step system

In addition to promotion from Assistant to Associate and Associate to Full Professor, the University of California has a series of intermediate steps (merit actions).

# Normal cycle of merit reviews

- › Assistant Professor – every 2 years
- › Associate Professor – every 2 years until associate IV, when it becomes every 3 years
- › Full professor – every 3 years
- › Distinguished Professor – every 4 years

# There are some important advantages to the step system

- Regular deadlines help with productivity
- Your department colleagues are reminded of your research at regular intervals – this promotes interaction and collaboration, and their promotion of your career
- Assessment at regular intervals creates feedback to make sure you are on track for the promotions--- and you get a raise!

# The Academic Personnel Review Process at UC

The best system in the world, with lots of checks and balances to ensure fairness and equitable treatment, but that is why it takes so long and why you may submit your first review file after your first year!

# **For most, the first file will be due September 30<sup>th</sup>, 2020!**

What can you do in your first year to document your achievements? – not so difficult for those coming in with tenure

- If you have had teaching release and so there is relatively little actual teaching in the file, document what you have learned about the classes you will be teaching, how you have developed the classes, and the teaching workshops you have attended etc

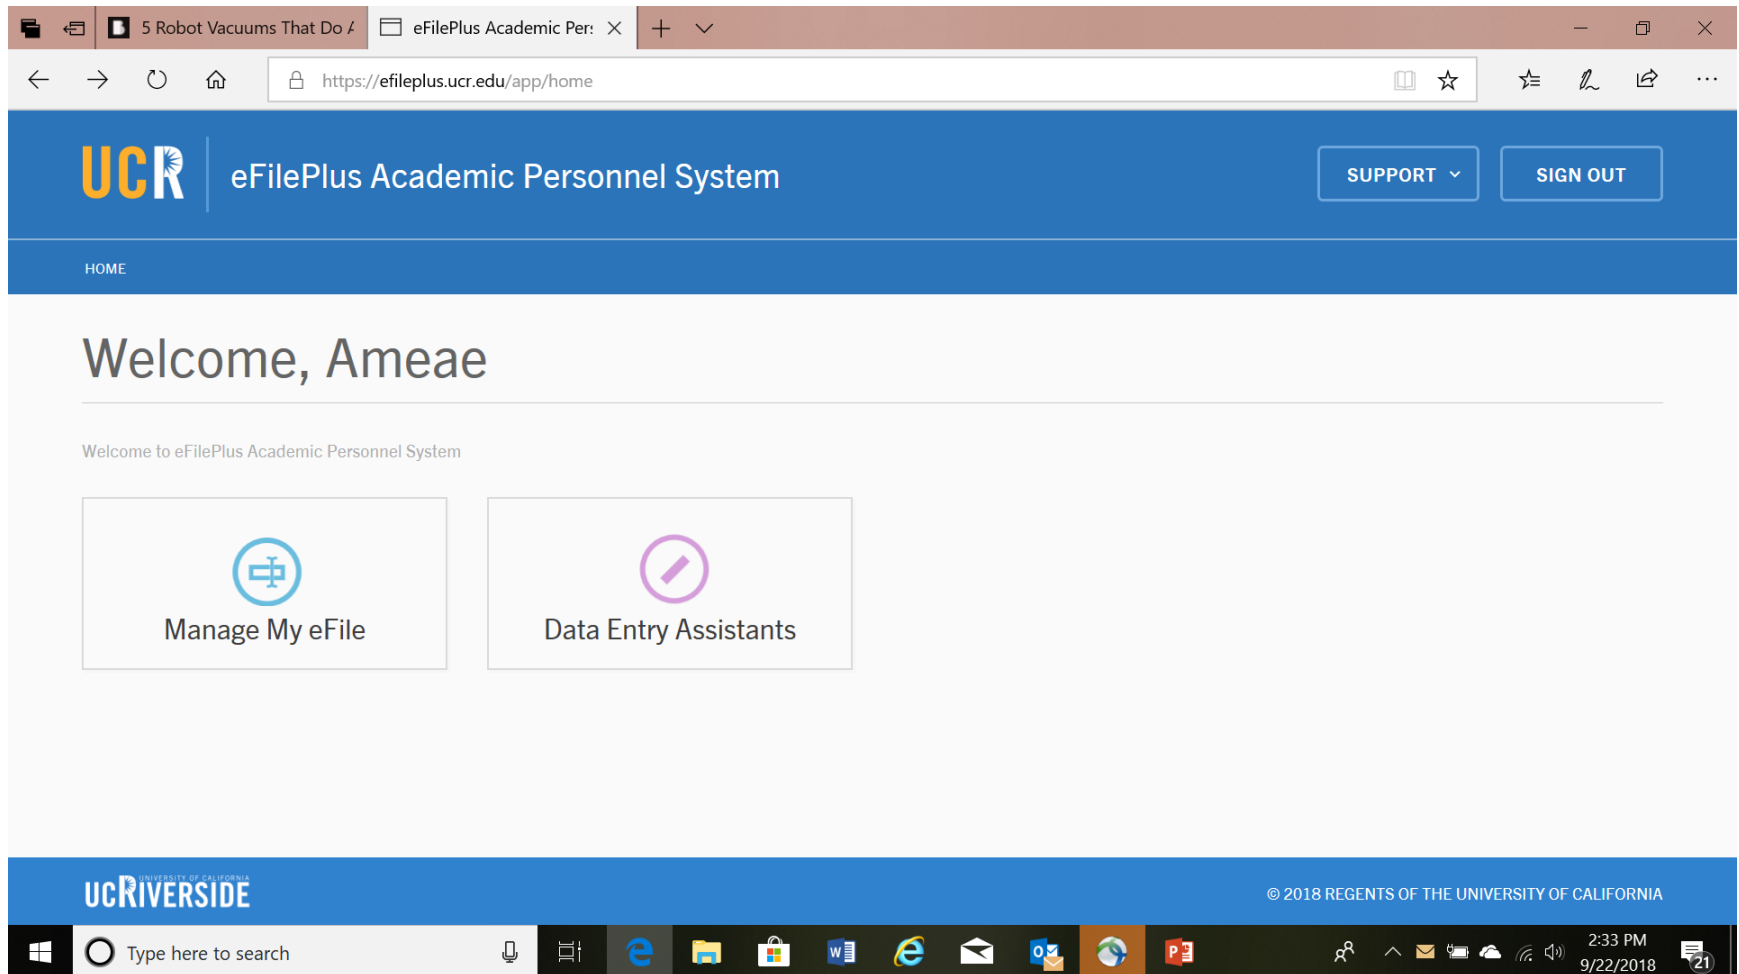

# **Your first file will be in 1 year!**

- Even if you have published something in your first year, chances are that it was something essentially accomplished at your previous institution. Yes, include this, but also talk about how you have begun your UCR research program. Have you submitted a grant or fellowship application? Have you drafted a chapter of your book etc?

# Your first file will be in 1 year!

- What university and professional service have you participated in? In all likelihood this was a minor activity your first year, but document it. Did you give a talk at a scholarly meeting? Did you advise students or participate in an open house?

# Normative time until

- › Tenure decision = 6 years (70%). Maximum of 7 years with no *stop-the-clocks*
- › From Associate to full professor = 6 years no maximum

But if you do well in **all three** areas of evaluation, you can accelerate up those steps

## Stages in a Normal Review-all cumulative

- Candidate assembles efile, including a self statement discussing accomplishments
- Departmental colleagues review the file and write a departmental evaluation and recommendation.
- Their opinion may have been influenced by extramural letters of evaluation if the candidate is up for promotion
- The Chair may add a separate letter, but routinely does not

# Stages in a Normal Review-all cumulative

- ▶ The file is evaluated by the Dean, often in consultation with Associate Deans. All actions require a vote and some actions require a letter with reasons.
- ▶ The file is evaluated by the Senate Committee on Academic Personnel (CAP). This is a body of 10 faculty representing diverse disciplines. Each member will review your file and vote on a recommendation to accompany a minute describing the reasons for their recommendation

# Stages in a Normal Review-all cumulative

- The Vice Provost for Academic Personnel (VPAP) reviews the file and makes a recommendation to the Provost (PEVC)
- The PEVC reviews the file. If a merit file, then the PEVC's decision is final. If a promotion, the PEVC makes a recommendation to the Chancellor
- Chancellor is final on promotion

# An extra action for Assistant Professors

- › At the beginning of your 5<sup>th</sup> year as an Assistant professor, you will put together a file that will not result in either a merit or a promotion and is entirely to **advise** you on your progress towards tenure “the 5<sup>th</sup> year appraisal”. The outcomes could be:-
- › positive – looks as though you are making good progress towards a positive tenure decision,
- › qualified positive – some areas good, but some deficient and in need of improvement, or
- › Negative – not on track – can still make tenure

# Don't forget

- With all of this talk of review and advancement, it is easy to be stressed and to forget that we have one of the best jobs in the world. Make sure you take time to appreciate the benefits of our chosen career: We get to indulge our intellectual passions, sow seeds of intellectual curiosity in the young, while having a job with a lot of flexibility that accommodates a good work/life balance.

# The UC “Master Plan,” Academic Senate, and Administration: *a power mapping*

- “Shared Governance”  
and faculty power

Two major features in the historical development of the University of California distinguish it from other major public research universities. The first is the university's unusual status as a constitutionally designated public trust – a designation shared by only five other major public universities. The second is the University of California's tradition of shared-governance: the concept that faculty should share in the responsibility for guiding the operation and management of the university, while preserving the authority of the university's governing board, the Regents, to ultimately set policy.

- **Curricula and courses.**
- **Advising on faculty appointments, promotions and budgets.**

# UCR

## A Global Perspective

Magid Shirzadegan, Ph.D.

Director International Students and Scholars

UNIVERSITY OF CALIFORNIA, RIVERSIDE

# BUILDING UCR'S GLOBAL COMMUNITY

## 2019 NEW FACULTY ORIENTATION

International Affairs Presentation by:

Karolyn M. Andrews

Shanon Langlie

Magid Shirzadegan

# INTERNATIONAL AFFAIRS MISSION

To support and enhance internationalization across UC Riverside.

## VISION

UCR as a globally preeminent public research university -- expanding a vibrant academic community where global knowledge, peoples, ideas, and skills are constantly evolving.

# OUR WORK FOCUSES ON

- **Global Community:**  
welcoming international people and fostering a campus culture of global awareness, understanding, engagement, and inclusion
- **Global Connection:**  
building a strong network by cultivating strategic partnerships in key regions around the world and reconnecting international alumni with UCR
- **Global Education:**  
enhancing students' learning by developing experiences that encourage critical thinking, intellectual curiosity and creative problem-solving
- **Global Impact:**  
facilitating innovative research collaborations to address challenges that affect our world.

# INTERNATIONAL AFFAIRS GOALS

- Enhance students' global learning experience:
  - through the curriculum, education abroad, internships and international research— to facilitate increased recruitment of undergraduate international students
- Expand international research collaborations and engagement opportunities:
  - for faculty: facilitating joint research, faculty-led education abroad programs, conferences and joint grant submissions
  - increase the number of international visiting scholars to UCR
- Reconnect international alumni to UCR
  - facilitate international students, faculty and business connections to UCR

# OUR DEPARTMENTS

## **INTERNATIONAL AFFAIRS**

Facilitating global connections through collaborative partnerships and strategic planning, implementation and communication of international initiatives for UC Riverside

## **EDUCATION ABROAD**

Advising and supporting students on outbound international programs and managing UCR's faculty led education abroad programs (FLEAP)

## **INTERNATIONAL STUDENTS AND SCHOLARS**

Providing support, advice, and guidance to international students, visiting scholars and international faculty at UCR

A large group of diverse young adults, likely international students and faculty, are posing for a group photo in front of the Fontana del Gallo in Rome. The fountain is ornate with multiple tiers and water spraying upwards. The group is arranged in several rows, with some individuals sitting or kneeling in the front. They are dressed in casual summer attire. The background shows the historic architecture of the fountain and surrounding buildings under a clear blue sky.

# EDUCATION ABROAD

## 3 PROGRAM TYPES

- **Faculty-Led Education Abroad Program (FLEAP)**
- University of California Education Abroad Program (UCEAP)
- Opportunity Abroad Programs – outside of UC system (OAP)

# BENEFITS OF FACULTY LED EDUCATION ABROAD PROGRAMS

- **UCR faculty:** close contact with UCR faculty and their professional network
- **UCR tuition:** the money remains here, and boosts summer session enrollments
- **UCR credit:** students don't have to worry that the credits won't count toward their degree, & don't have to wait for grades to post
- **UCR financial aid:** aid applies, as to any other UCR course
- **Travel as a group:** group travel helps those hesitant about going it alone
- **Increased access:** short term programs cost less overall, in time and money

# COMMON NON-IMMIGRANT VISAS AT UCR

- **F-1 Student (SEVIS)**
  - International students enrolled at UCR
- **J-1 Exchange Visitor**
  - Visiting professors & researchers
- **H-1B Specialty Worker**
  - Position must require a minimum of a Bachelor's degree
- **TN Visa**
  - Canadian & Mexican citizens. The job must qualify under NAFTA
- **B-1/WB**
  - International visitors invited by the university to engage in temporary academic, educational, or professional activities
- **Permanent Residency**
  - Not as permanent as it sound. Tenure track or occasionally long-term positions

# KEY FACTORS TO CONSIDER WHEN HIRING OR INVITING VISITING SCHOLARS

- Length of time scholar will be at UCR
- Site of activity – on or off campus?
- English language proficiency
- The cost (\$1,000 – \$15,000)

Why I have  
stayed at  
UCR for 40  
years?

UNIVERSITY OF CALIFORNIA, RIVERSIDE

- › The merit and promotion system was important to me
  - › The security of tenure really meaning tenure was important so that I could try some high risk/high payoff projects
  - › It was and is a campus where one person can make a difference
  - › I came in to help build a new program, which was exciting
  - › It was unusual in my experience to find a university with great researchers and, in most cases, researchers who also cared very much about their teaching
  - › I love the philosophy
  - › I love the weather
  - › Could things be better?
- 
- › Come and meet your Provost!
