M/P Decisions – Overall Agreement Rate Analysis

- 1. An M/P file can have multiple decisions. For example, a merit advance is one decision but a second decision might be about new O/S. Another example is that multiple placement levels might be considered at promotion.
- 2. Excluding reappointments, quinquennials, and appraisals, there were 676 AY21-22 decisions made during reviews at the Department, at the Dean's Office, at CAP, by the VPAP, and by the Provost.
- 3. The table shows the percentage of the decisions that the row entity and the column entity agreed upon.
- 4. Arrows point toward the decision entity that was supportive more often as determined by a 5% McNemar test. Absence of an arrow implies there was no tendency for one or the other entities to be more supportive.

Types of Considerations for AY21-22 Merit and Promotion Files

<u>Type of Consideration</u>: Each merit and promotion file, irrespective of the outcome, is viewed either as a normal advance, a normal advance with new O/S, or a multiple step advance, based on what type of action was reviewed.
