

Recruit Release Notes Changes Launching 2017-02-09

Committee Chair Survey

In order to allow committee chairs to take the committee chair survey, we have added a **banner message and survey link** to Senate recruitments that explains the purpose of the survey and provides a way to access said survey.

Committee chairs: We seek your help in carrying out a UC-wide study to evaluate the impact of the survey on the advancement of the university. We seek your help in carrying out a UC-wide study to evaluate the impact of the survey on the advancement of the university. We seek your help in carrying out a UC-wide study to evaluate the impact of the survey on the advancement of the university.

Recruitments

In our continuing quest to move the applicant manage page to the applicant review page, we have ported the ability to activate **manually added applicants to the review page**.

Feed the Birds

All it takes is tuppence from you!

- Feed the birds, tuppence a bag
- Tuppence, tuppence, tuppence a bag
- Feed the birds that's what she cries
- While overhead, her birds fill the skies

Previously, the News and Updates page of Recruit could only have plain, boring text. We have now implemented **markdown formatting in News and Updates** so that admins can create better looking, better formatted news articles and update announcements.

What say you?

Published 2017-02-01

We have also added the ability to **send the application activation email to applicants during the manual adding process**. This means the analyst can now add and send activation emails in one step, making it easier to add multiple applicants manually.

Application Information

* Date received:

Feb 7, 2017

Notify applicant that application is in the system

Activate application. Send the applicant instructions to the email address associated with the application, and take the diversity survey.

Finally, we have **improved the user experience of the visit / seminar tool** on the applicant review page by simplifying the interface. We hope this will make the tool easier and more pleasant to use.

Bugs 'n Stuff

- API "not found" errors for Recruitment are inconsistent with other types. We changed the "not found" errors to match those used in Waivers and Exemptions.
- Online contact setup shows "From" instead of "Reply to". We clarified that this is the "From" address.
- References who type blank letters are given a "Content_type" error. We made the error message more understandable.
- We removed an unnecessary name character length requirement on applicant references.
- Reviewers can now access uploaded advertisement documents
