

Recruit Release Notes Changes Launching 2016-05-05

Waivers see it on your QA site

We've added **approval statuses** for waiver requests to the waiver grid, providing analysts and admins a quick reference point for the status of each waiver request.

SWR#	Approval Status	Candidate Name
SWR00001	APPROVED	Apple Banana Cantoloupe
SWR00057	APPROVED	George Mallory
SWR00005	APPROVED	Herman G. Munster
SWR00053	APPROVED	Jorge Lucas
SWR00050	APPROVED	Tom Riddle

You may also notice that grids look different throughout

Recruit, both in Recruitments and Waivers. We've **updated the design of the grids** to give them a lighter, easier-to-read feel.

Recruitments

Approval

PENDING • [View approval request](#) • [Update approval](#)
1/2 approved • 1 comment

NOT SUBMITTED • [Submit as new approval](#)

Approval statuses also now appear in Recruitments. You can see them for yourself on the Reports tab in the reports grid.

Everyone loves change! It's exciting! So you'll be excited to hear we changed the term "Benchmark Data" to **Availability Data**, and the term "Specialties" to the more accurate, less confusing **Fields of Study**. You can find the new terms

Availability Data

Select the broad fields of study that best fit this recruitment here will not be visible to applicants; they will only be used for reporting.

Fields of study:

throughout Recruit, as well as in the online help documents. Thank you to all who helped us workshop this new terminology on the discussion list.

We will be updating the full user manual in the next sprint, which should aid campuses with their help doc and training material updates.

We made improvements to the **fake recruitment tool** that will allow admins to create more robust, more specific fake recruitments.

Admins can now specify the number of additional qualified, complete but not qualified, and incomplete applicants in a fake recruitment, as well as the percentage of the survey participation rate.

Create fake recruitment

Recruitment name

Department

Applicants

Fake recruitments always have 3 named applicants, all of whom took the survey:

- Margaret Mead, who is *complete*, *meets basic qualifications*, with status *recommend for interview*.
- Winston Burke, who is *complete*
- Jane Stark, who has *withdrawn*

How many more applicants should this recruitment have?

Qualified applicants	Complete applicants	Incomplete applicants
<input style="width: 100%;" type="text" value="0"/>	<input style="width: 100%;" type="text" value="0"/>	<input style="width: 100%;" type="text" value="2"/>
Qualified and complete	Complete but not qualified	Not yet complete

Survey participation rate

%

How many of these applicants took the survey?

*** Department**

*** Crosslisted Department**

*** Crosslisted School**

✖ Remove

If the unit you want is not available, please [contact an admin](#)

+ Add crosslisted unit

We also changed the appearance of the **home department and crosslist pickers** to make crosslist creation more intuitive.

Finally, we've updated the All Applicants page in the Diversity section to

Applicant	Status	Gender	Ethnicity	Veteran Status	Disability Status
Mead, Margaret	Recommend for interview ⓘ by Kim Gerrard May 3, 2016 10:29am	Declined	American Indian/Alaskan Native	Yes	Yes
Stark, Jane	Withdrawn ⓘ by Kim Gerrard May 3, 2016 10:30am	Female	White	Yes	Decline To State

display **Veteran and Disability Status survey responses**. This gives visibility to survey responses that were previously not visible in Recruit. The All Applicants page continues to be accessible only by Diversity Analysts, Equity Advisors, and Admins.

Bugs 'n Things

We fixed a bug where brackets were appearing on error messages on the applicant dashboard

We fixed an issue where manually uploaded documents would not be saved if the analyst also checked the box “Document received outside of UC Recruit application.” Documents will now always upload, even if this box is checked. Thanks for bringing this to our attention, UCSF!
