Dear Research Community,

As you probably know, the National Institutes of Health (NIH) issued new guidance regarding Facilities and Administration (F&A) costs. You may have also seen the message from our system Provost explaining what UC is doing regarding this difficult situation.

If you are submitting a proposal to NIH in the next couple of days, please contact the RED office at redalert@ucr.edu for instructions. Otherwise, we ask you to wait to finalize your budgets until further information is provided.

The situation is very fluid and continuously changing; we will keep you informed.

Thank you for your patience and be reassured that our campus, the UC system, and numerous organizations are coordinating efforts to support and protect your research.
