New Faculty Orientation
Friday, September 28, 2018

Ameae M. Walker
Vice Provost
for Academic Personnel
Kim Wilcox

Cindy Larive

WELCOME!
What do we hope to achieve this afternoon?

- Give you an introduction to the University of California, Riverside and to the City of Riverside.
- Give you a chance to hear from and meet some of the leadership and to meet each other.
- Provide written material for future reference - handouts.

- We will not be taking care of items like keys, parking, IDs or required trainings. Those will be dealt with by your college or department staff.
Do we abandon you after this orientation?

- No, we have a *New Faculty Success* series of 9 presentations in collaboration with the Graduate Division plus a junior faculty workshop October 26th here.
- There is a copy of the schedule in your packet. Topics include:- Managing graduate students as TAs or researchers, Conflict resolution, Grant writing and more. Mark your calendars now!
- You can sign up to be a part of the *Buddy Program*

*Tell us any special aspect of yourself*
Mission of the University of California – what the State pays you to do

"The distinctive mission of the University [of California] is to serve society as a center of higher learning, providing long-term societal benefits through transmitting advanced knowledge, discovering new knowledge, and functioning as an active working repository of organized knowledge. That obligation, more specifically, includes undergraduate education, graduate and professional education, research, and other kinds of public service, which are shaped and bounded by the central pervasive mission of discovering and advancing knowledge."
How do we assess that you are contributing to the mission?

- Research/Scholarly Activity/Creative Activity
- Teaching
- Service within your research/professional area and service to the university

The balance among these depends on the faculty series into which you have been hired.

Contributions in each of these areas that promote inclusive excellence are given special weight.
How do you get it right?- be on campus

“In order to fulfill those obligations [to the University], faculty members must maintain a significant presence on campus, meet classes, keep office hours, hold examinations as scheduled, be accessible to students and staff, be available to interact with University colleagues, and share service responsibilities throughout every quarter or semester of active service.” Active service includes quarters during which you have no assigned classes.
How do you get it right?- mentor

Find the right mentor-
Probably more than one for different purposes

➢ Maybe a senior faculty member in your department or another department.

➢ Most of the colleges have one kind of mentoring program or another. Some vary according to department (CNAS and BCOE) and you will receive more information at the college orientations.

➢ Women’s faculty association- regular workshops + mentoring

➢ Research office holds workshops about extramural funding

➢ We have an Institutional membership for the National Center for Faculty Development and Diversity

http://www.facultydiversity.org/

➢ –talk to your Chair
How do you get it right?- research

- The level and/or type of research or creative activity varies with the faculty series into which you are appointed and also with the discipline or sub-discipline. It is therefore important that you meet regularly with your department chair or mentor to discuss progress.
How do you get it right?- service

It is important to be involved, but also important to maintain a balance with the other expectations of your job. You will not be granted tenure or promoted to Full professor or Distinguished professor if your research is lacking but you have been a wonderful citizen! Nevertheless, it is important to emphasize that your contributions to service are a significant part of the evaluations for your merits and promotions. You will not, for example, be granted promotions or accelerations through the merit system if your contributions to service are not commensurate with rank.
How do you get it right?- teaching

- UCR has many students who are the first in their families to attend college. Your expectations may not be as obvious to them as you anticipate.
- Think about the economic situation of many of the students when choosing texts etc.
- Remember that many students have to work while attending UCR and the longer lead time they have for assignments, the more successful they are likely to be. Try to be flexible about office hours so that they can indeed find time to come see you.
How do you get it right?- teaching

› Workshops offered by Academy of Distinguished Teachers. Wednesdays 3.30-4.30pm in the Teaching and Learning Center, Rivera Library – RSVP by 9/30/18

› Course Design and Assessment-10/10/18

› Technology in the Classroom-10/24/18

› Engagement in large and small classes-11/7/18

› Academic advancement and teaching evaluations 11/28/18

› Wrap-up and additional topics 12/5/18
How do you get it right?- teaching

Student evaluations are a significant source of information about the quality of your teaching during the academic personnel review process. The two most important pieces of advice are 1) to show the students that you care about doing a good job and that they succeed in the course (they will forgive a lot of imperfections under these circumstances) and 2) to ask for help from colleagues or the Academy of Distinguished Teachers as soon as you receive poor evaluations. Evidence that you have actively sought help and are trying to improve carries weight in the evaluation of personnel files.

Listen to Vice Provost Brown!
University of California step system

In addition to promotion from Assistant to Associate and Associate to Full Professor, the University of California has a series of intermediate steps (merit actions).
Normal cycle of merit reviews

- Assistant Professor – every 2 years
- Associate Professor – every 2 years until associate IV, when it becomes every 3 years
- Full professor – every 3 years
- Distinguished Professor – every 4 years
There are some important advantages to the step system

- Regular deadlines help with productivity
- Your department colleagues are reminded of your research at regular intervals – this promotes interaction and collaboration, and their promotion of your career
- Assessment at regular intervals creates feedback to make sure you are on track for the promotions--- and you get a raise!
The best system in the world, with lots of checks and balances to ensure fairness and equitable treatment, but that is why it takes so long and why you may submit your first review file after your first year!
For most, the first file will be due September 30th, 2019!

What can you do in your first year to document your achievements? – not so difficult for those coming in with tenure

- If you have had teaching release and so there is no, or relatively little, actual teaching in the file, document what you have learned about the classes you will be teaching, how you have developed the classes, and the teaching workshops you have attended etc
Your first file will be in 1 year!

- Even if you have published something in your first year, chances are that it was something essentially accomplished at your previous institution. Yes, include this, but also talk about how you have begun your UCR research program. Have you submitted a grant or fellowship application? Have you drafted a chapter of your book etc?
Your first file will be in 1 year!

- What university and professional service have you participated in? In all likelihood this was a minor activity your first year, but document it. Did you give a talk at a scholarly meeting? Did you advise students or participate in an open house?
Welcome, Ameae

Welcome to eFilePlus Academic Personnel System

Normative time until

- Tenure decision = 6 years
  maximum of 7 years with
  no *stop-the-clocks*

- From Associate to full
  professor = 6 years
  no maximum

But if you do well in *all three* areas of evaluation, you can accelerate up those steps
Stages in a Normal Review-all cumulative

- Candidate assembles efile, including a self statement discussing accomplishments
- Departmental colleagues review the file and write a departmental evaluation and recommendation.
- Their opinion may have been influenced by extramural letters of evaluation if the candidate is up for promotion
- The Chair may add a separate letter, but routinely does not
Stages in a Normal Review-all cumulative

- The file is evaluated by the Dean, often in consultation with Associate Deans. All actions require a vote and some actions require a letter with reasons.
- The file is evaluated by the Senate Committee on Academic Personnel (CAP). This is a body of 10 faculty representing diverse disciplines. Each member will review your file and vote on a recommendation to accompany a minute describing the reasons for their recommendation.
Stages in a Normal Review—all cumulative

- The Vice Provost for Academic Personnel (VPAP) reviews the file and makes a recommendation to the Provost (PEVC)
- The PEVC reviews the file. If a merit file, then the PEVC’s decision is final. If a promotion, the PEVC makes a recommendation to the Chancellor
- Chancellor is final on promotion
An extra action for Assistant Professors

- At the beginning of your 5th year as an Assistant professor, you will put together a file that will not result in either a merit or a promotion and is entirely to advise you on your progress towards tenure “the 5th year appraisal”. The outcomes could be:
  - positive – looks as though you are making good progress towards a positive tenure decision,
  - qualified positive – some areas good, but some deficient and in need of improvement, or
  - Negative – not on track – can still make tenure
Don’t forget

With all of this talk of review and advancement, it is easy to be stressed and to forget that we have one of the best jobs in the world. Make sure you take time to appreciate the benefits of our chosen career: We get to indulge our intellectual passions, sow seeds of intellectual curiosity in the young, while having a job with a lot of flexibility that accommodates a good work/life balance.

- UCR VCREDS since 2012
  - Oversight of research
  - External funding for research
  - Corporate partnerships
  - Technology partnerships

- Professor of Computer Science
  - >150 papers
  - Fellow of the Association for the Advancement of Artificial Intelligence
  - Funded by NSF, Department of Education, DARPA, AFOSR, ARO, and Industry
  - 2006-2012 VCREDS, Rutgers
  - 2002-2006, Director, Information and Intelligent Systems Division, NSF
  - Founder of start-up company “AdaptiveInfo”
Overview

- Making an impact
  - Do great research
  - Let others know about it
  - Collaboration is important and valued

- Don’t introduce yourself as junior faculty or assistant professor

- Involve Undergraduates in Research
- Obtaining Resources for Research
  - Sponsored Project Administration
  - Compliance (IRB & IACUC)

- Technology Partnerships

- Lunches
Research and Education

- Publicize your publications
  - Publications online are cited twice as often
  - Email papers to people who you want to read them

- Collaborate with others: Ignore advice to focus solely on single authored papers

Make Your Ideas Stand Out

- Proposal Summary is extremely important

- Reviewer forms an initial impression that is seldom changed

- Submit at least one day early → First in order.

- Address all issues in solicitation, research, evaluation, education, assessment, outreach
Increase acceptance rate by visiting funding agency

- Learn more about what types of projects agency is looking for (e.g., balance between theory and observation)
- Explain to agency your ideas and accomplishments
- Find additional solicitations or agencies for support
• 50% Professor of Physics & Astronomy (since 2007)
  • >80 papers
  • PI of SpARCS collaboration (30 person international team)
  • Funded by NSF and NASA

• 50% Office of Research (since Jan 2018)
  • Works with the VCR to develop collaborative partnerships across disciplines and to increase extramural funding
  • New interdisciplinary initiatives in water, aging, and agriculture
  • Mock NSF CAREER review
  • Limited submission proposals
  • DC trips to meet with program officers at federal funding agencies
  • Supports shared research facilities
  • 1:1 meetings with faculty

Human Subjects Research:
All research that uses human subjects, whether or not it is funded, must be reviewed by the UCR Institutional Review Board (IRB).

Animals:
All research using animals, whether or not it is funded, must be reviewed by the UCR Institutional Animal Care and Use Committee (IACUC). Research can only begin following approval by the committee.

Biosafety:
All research that uses recombinant DNA, infectious agents, select agents, biological toxins, or other biohazardous agents, whether or not it is funded, must be reviewed by the UCR Institutional Biosafety Committee (IBC). Research can only begin following approval by the committee.
Office of the Campus Veterinarian

• Oversees all animal facilities at UCR
• Ensures that UCR laboratory animal care and use programs comply with federal, state, and local guidelines for laboratory animal care
• Provides housing facilities for animal species in support of the animal research enterprise on campus.

Research Development

- Assistance with writing proposals
  - Focusing on what is important
  - Proofreading
  - Best practices for outreach/broader impacts/assessment
  - Not a replacement for scientific/peer review

- Templates For proposal sections
  - Postdoc mentoring plans
  - Outreach
  - Facilities
  - NSF CAREER awards

- Focus on
  - New Faculty/First Awards
  - Center Grants

A PI from an Illinois institution plagiarized text and citations from multiple source documents into four NSF proposals. Our office initiated an inquiry based on an allegation that a PI plagiarized into three proposals.

We concluded that the PI committed research misconduct when he plagiarized text in four NSF proposals. NSF agreed with our recommended finding, debarred the subject for one year, required certifications and assurances for 3 years, barred him from peer review for 3 yrs, and required him to complete a course in research ethics.
Upcoming Events

- **October 5** – Autonomous Systems workshop (Amit Rou Chowdhury)
  Registration [http://ccb.ucr.edu/wfaas.html](http://ccb.ucr.edu/wfaas.html)

- **October 10** – R’ Water workshop (Hoori Ajami)
  Registration [https://www.rwater.ucr.edu/events](https://www.rwater.ucr.edu/events)

- **October 17** – Sensorygen: A Startup Success Story (Anand Ray)

- **October 26** – UCR High Performance Computing Center (HPCC) Workshop

- **October (TBD)** – Aging & Adult Development Workshop (Aaron Seitz)

- **November 2** – UC San Diego Super Computer Center

- **November 6/7** – NSF Director Visit

- **November (TBD)** – Science Breakthroughs to Advance Food & Agricultural Research by 2030 (Sue Wessler)

- Suggestions for RED lunch topics welcome

UNIVERSITY OF CALIFORNIA, RIVERSIDE
Broad Definition of Diversity

The diversity of the people of California has been the source of innovative ideas and creative accomplishments throughout the state’s history into the present. Diversity — a defining feature of California’s past, present, and future — refers to the variety of personal experiences, values, and worldviews that arise from differences of culture and circumstance. Such differences include race, ethnicity, gender, age, religion, language, abilities/disabilities, sexual orientation, gender identity, socioeconomic status, and geographic region, and more.

“Inclusive Excellence”
Research, Teaching & Service

The diversity of the people of California has been the source of innovative ideas and creative accomplishments throughout the state’s history into the present. Diversity – a defining feature of California’s past, present, and future – refers to the variety of personal experiences, values, and worldviews that arise from differences of culture and circumstance. Such differences include race, ethnicity, gender, age, religion, language, abilities/disabilities, sexual orientation, gender identity, socioeconomic status, and geographic region, and more.
Diversity should also be integral to the University’s achievement of excellence. Diversity can enhance the ability of the University to accomplish its academic mission. **Diversity aims to broaden and deepen both the educational experience and the scholarly environment, as students and faculty learn to interact effectively with each other, preparing them to participate in an increasingly complex and pluralistic society.** Ideas, and practices based on those ideas, can be made richer by the process of being born and nurtured in a diverse community. The pluralistic university can model a process of proposing and testing ideas through respectful, civil communication. Educational excellence that truly incorporates diversity thus can promote mutual respect and make possible the full, effective use of the talents and abilities of all to foster innovation and train future leadership.
EQUALITY

EQUITY
EQUALITY  EQUITY  REALITY  Liberation
Institutional Initiatives at UCR

- **Undergraduates**
  - General Education Unit Requirements
  - Costo Hall-suite of Ethnic & Gender Based Programs; Diversity Council
  - Student Affairs "Common Ground" retreat & orientations
- **Staff**
  - Chancellor’s Making Excellence Inclusive Program – Diversity Certification Program (9 cohorts/years; 8 months – 21 hours)
  - Liaisons in Equity, Advocacy & Diversity (LEAD Team) for Unit Resources
  - Human Resources – Employee Resource Groups/Affinity Groups; Learning Management Systems online modules 6 x 20” (2 hours)
- **Graduate Students**
  - Diversity & Inclusion Academic Liaison (DIAL Officer; GSR)
  - Chancellor’s MEI Program - Graduate Division Diversity Certification Program (2 cohorts; 10 weeks – 30 hours)
  - TADP Training/Orientation negotiation with TA Union & Graduate Division
- **Faculty**
  - Mandatory Hiring Online and In-Person Workshops
  - Departmental Meeting Facilitations
  - Equity Advisors Program; Diversity, Equity & Inclusion Advisory Committee
  - LMS Modules Consideration (Onboarding and/or Periodic?)

OUR VISION

Is to advance the University’s continuing endeavors to become a globally preeminent public research university -- in a vibrant academic community where global knowledge, peoples, ideas, and skills are constantly evolving.

INTERNATIONAL AFFAIRS VISION

Is to advance the University’s continuing endeavors to become a globally preeminent public research university -- in a vibrant academic community where global knowledge, peoples, ideas, and skills are constantly evolving.
INTERNATIONAL AFFAIRS MISSION:

To support and enhance internationalization across UC Riverside.
OUR WORK FOCUSES ON

- **Global Community:**
  welcoming international people and fostering a campus culture of global awareness, understanding, engagement, and inclusion

- **Global Connection:**
  building a strong network by cultivating strategic partnerships in key regions around the world and reconnecting international alumni with UCR

- **Global Education:**
  enhancing students’ learning by developing experiences that encourage critical thinking, intellectual curiosity and creative problem-solving

- **Global Impact:**
  facilitating innovative research collaborations to address challenges that affect our world.
INTERNATIONAL AFFAIRS GOALS:

• Enhance students’ global learning experience:
  • through the curriculum, education abroad, internships and international research—to facilitate increased recruitment of undergraduate international students

• Expand international research collaborations and engagement opportunities:
  • for faculty: facilitating joint research, faculty-led education abroad programs, conferences and joint grant submissions
  • increase the number of international visiting scholars to UCR

• Reconnect international alumni to UCR
  • facilitate international students, faculty and business connections to UCR.
ENGAGING UCR FACULTY

• Strategic Partnerships and MOUs
• International Research Collaborations
• Faculty Led Education Abroad Programs (FLEAP)
• Supporting International Students in the Classroom
INTERNATIONAL AFFAIRS DEPARTMENTS

INTERNATIONAL AFFAIRS ADMINISTRATION, BUSINESS & COMMUNICATIONS
Strategic planning, implementation and communication of international initiatives for UC Riverside

EDUCATION ABROAD
Advising and supporting students on outbound international programs and facilitating faculty led education abroad programs (FLEAP)

INTERNATIONAL STUDENTS AND SCHOLARS
Providing support, advice, and guidance to international students and international faculty at UCR
